

Setup of IIS Server on Windows and installing a website

Go to ServerManager

Select Add Roles & Features

The screenshot displays the Windows Server Manager Dashboard. The top navigation bar includes a back arrow, the text 'Server Manager > Dashboard', and icons for help, flags, and 'Manage' and 'Tools' links. The left sidebar contains a 'Dashboard' link and three server-related links: 'Local Server', 'All Servers', and 'File and Storage Services'. The main content area is titled 'WELCOME TO SERVER MANAGER' and features a 'QUICK START' section with five numbered steps: 1. Configure this local server, 2. Add roles and features, 3. Add other servers to manage, 4. Create a server group, and 5. Connect this server to cloud services. Below this is a 'WHAT'S NEW' section with a 'LEARN MORE' link. The 'ROLES AND SERVER GROUPS' section shows the current configuration: 'Roles: 1 | Server groups: 1 | Servers total: 1'. It lists three items: 'File and Storage Services' (with a green checkmark and '1'), 'Local Server' (with a green checkmark and '1'), and 'All Servers' (with a green checkmark and '1'). Each item has a sub-section for 'Manageability', 'Events', and 'Performance'.

Select the installation type. You can install roles and features on a running physical computer or virtual machine, or on an offline virtual hard disk (VHD).

- ☒ **Role-based or feature-based installation**
Configure a single server by adding roles, role services, and features.
- ☐ **Remote Desktop Services installation**
Install required role services for Virtual Desktop Infrastructure (VDI) to create a virtual machine-based or session-based desktop deployment.

Select defaults

The screenshot shows the 'Add Roles and Features Wizard' window. The title bar reads 'Add Roles and Features Wizard'. The main heading is 'Select destination server'. In the top right corner, it says 'DESTINATION SERVER EC2AMAZ-MG1511C'. On the left, there is a navigation pane with the following items: 'Before You Begin', 'Installation Type', 'Server Selection' (which is highlighted with a blue bar), 'Server Roles', 'Features', 'Confirmation', and 'Results'. The main content area has the instruction 'Select a server or a virtual hard disk on which to install roles and features.' Below this are two radio buttons: 'Select a server from the server pool' (which is selected) and 'Select a virtual hard disk'. Under the 'Server Pool' section, there is a 'Filter:' text box. Below the filter is a table with three columns: 'Name', 'IP Address', and 'Operating System'. The table contains one row: 'EC2AMAZ-MG1511C', '172.31.40.63', and 'Microsoft Windows Server 2016 Datacenter'. Below the table, it says '1 Computer(s) found'. A paragraph of text follows: 'This page shows servers that are running Windows Server 2012 or a newer release of Windows Server, and that have been added by using the Add Servers command in Server Manager. Offline servers and newly-added servers from which data collection is still incomplete are not shown.' At the bottom of the window, there are four buttons: '< Previous', 'Next >', 'Install', and 'Cancel'.
